The young Hawaiian, whose head struck the pavement at the corner of Bethel and Hotel streets on Monday night, after he was knocked down by Wm. Biang, regained consciousness yesterday morning. The young lady who was rendered unconscious by a fall at the skating rink on Sunday evening and was taken to the hospital for treatment, was able to leave yesterday. Emil Johnson, who had a fall at the rink the same night and was unconscious for nearly twenty hours, is recovering.

They are off the boards as far as public shows are concerned, but they were certainly on exhibition at Waikiki beach yesterday afternoon, by "they" are meant Jolly Trixie and Babe Bliss, the very fat folks who have for the past few weeks exhibited at Aloha Park. There was a crowd at Bergen's place, at the Waikiki Inn, to see the 700-pound lady and the 600-pound boy take a swim. The event was not advertised, but was none the less a treat to those who happened to be on hand to see the ocean rise.

DR. KING'S IMPRESSIONS OF HIS KILAUEA VISIT

Dr. Henry Churchill King, president of Oberlin College, who preached on several occasions at Central Union Church this summer, has sent back from San Francisco his impressions of his visit to the crater of Kilauea, which follows:

The Kilauea volcano on the Island of Hawaii, which I had the privilege of seeing August 17 and 18, 1910, seems to me to belong among the great natural sights of the world. I saw it toward the end of an around-the-world trip, that had included very much of great interest; and I count the hours spent in watching the wonderful changes of the boiling lake of lava at Kilauea, especially at night, among the most unique experiences of the entire trip. The glimpse into some of the processes of world-making, the comparisons of the boiling lava, and the older lavadomes, and the marvelous play of color in the fiery lake at night—are all of the greatest interest. The journey to the Hawaiian Islands is well worth while simply for the sake of seeing the volcano.

Charles Clapp, formerly of the Inter-Island company's office, and who was reported to have died shortly after his marriage in Falmouth recently, is very much alive, and he wishes to deny the report, according to a letter received by Harry Armitage. The information that Mr. Clapp was dead came from an official of the Inter-Island company, who was called by phone in connection with the marriage notice then received. The official confirmed the marriage part all right and then volunteered the statement that as far as he knew Mr. Clapp had died shortly afterward. The following day the same official corrected the report he had given the night before, stating Mr. Clapp was still alive, and he is very much alive at the present date.

COAHY RELATIVE HERE.

MATEO, August 28.—That the

husband of Miss Nora Brewer and Ed-

ward, son of the millionaire packer

family, was given out in a semi-

official manner last night.

The fate of this marriage has been

limited to the members of the

families, and though nonofficial

statement has been made of the

event it was learned from an

authoritative source that, early in No-

vember, the marriage will take place

at Matthew's Church of San Mateo,

Calif., where, with her sister,

Amy Brewer, intended spending

winter in Boston, changed her

plans yesterday and definitely stated

she would not go east, but would

remain in San Mateo until the marriage

place.

Edward has been staying at the resi-

dence of his sister, Mrs. Jack Casserly.

He has been taking an active

part in tennis and golf at the Burl-

ing Country Club and thereby dis-

missing the rumors of his ill health.

Mr. Brewer, a brother of the bride

groom, left for Honolulu last week and

engaged in business there.

Gamble vs. Certainty.

Any man who engages in business

has a chance; the farmer's crop may

be a failure; the ship may sink; even your life

is a gamble. Some gambles are

good gambles; some have odds in

your favor. A gamble in Lakeview

is a good gamble. Any man with in-

vestment takes a chance and develops

a globe trotter or tourist and lives

in a still a clerk at his old job.

But he took a gamble in it—his

life is now about half a million dol-

lars; he don't work now. Today

he has an opportunity—tomorrow may be

gone. Cut this out and come and

see you have everything to gain

in a gamble.
